

## Linn Reed-Schwanborg

**Title of the lecture:**

Rehabilitation of persons with lower limb amputation;  
A retrospective cohort analysis and a qualitative study  
focusing on multi-disciplinary long term follow up

**Employer/affiliation:**

Sophies Minde Ortopedi / OsloMet

**Brief introduction about the presentation:**

A presentation on the current progress of my PhD-project. This project examines lower limb amputees who have undergone an amputation at Oslo University Hospital from 2017-2023. We aim to describe the population, investigate the long term mobility and conduct a large scale qualitative study on experiences with out-patient multidisciplinary long term follow up of this group.

**Brief presentation of the speaker:**

CPO at Sophies Minde Ortopedi AS and PhD-candidate at OsloMet.
