

Paulette Larsen

Title of the lecture:

Insight into amputation in Denmark in relation to the data register and the newly started interdisciplinary association, Amputations Rehabilitation Denmark, ARD

Employer/affiliation:

Physiotherapist, Head of Rehabilitation Department, Sahva, København. I am presenting based on my role in the interdisciplinary association ARD, where I am co-founder and chairman.

Brief introduction about the presentation:

I will like to present our newly started interdisciplinary association ARD, Amputation Rehabilitation Denmark, our vision and strategy and give an insight into the National Conference we held in June with close to 200 participants. I will also present the two Danish data registers, PRO-AMP, the municipal data register for citizens who are provided with prostheses after leg amputation and DAN-AMP, the regional register with peri- and postoperative data regarding lower limb amputation.

Brief presentation of the speaker:

I have worked with rehabilitation after lower limb amputation for the past 23 years. I am part of the team behind the Danish national clinical guidelines. I hold courses and events around amputation rehabilitation at Denmark and abroad and so much more. I am head of the rehabilitation department in Sahva, where we specialize in rehabilitation of limb amputees. It is my work and my passion
